THE POLISH INSURRECTION.

A Cracow telegram says that the following proclamation viceneral Langiewitz, dated March 10, has been pub

and that it has produced a prodigious effect:—

**TRYNKK*—In the name of the Most High, the most
ic sous of Poland have commenced a struggle
by terrible abuses and directed against the eterna
is of liberty and civilization.

**Withstanding the extremely unfavorable circum
in which the enemy, by a great increase of op
in hastened in fifte an armed coulict, we hav

reason to believe that we shall triumb in this

the proprietors.

Foles of all provinces beneath the yoke of the Muscovite, i summon to the struggle against the domination of Russian barberism. Come one, come all of you. The liberty of Posand must be achieved.

The concord of all utilizens, irrespective of classes, of religious, of communities, one and all making sacrifices for the common cases, will give to us such unity and strength as will render our now scattered forces terrible to the enemy and insure the independence of our country.

To arms! to arms! to arms! for the liberty and inde-sendence of our father and. LANGIEWITZ.

In terms of the above Langiewitz has been proclaimed

General Wysopi has been appointed his military coadju-

tor and director.

The civil administration has been entrusted to Paeut-

It is reported that all the independent members of the Council of State of Poland have sont in their resignations. It is repeated that the Czar of Russia has sent a de spatch stating that, whatever may be thought of the abstract justice of the demands of the Poles, the Emperor Alexander can listen to no overtures or terms of compremies so long as they continue in "Timed insurrection."

A Cabinet council had been held in Paris to consider what action was necessary in regard to the above demands.

was about to proceed to Vienna.

The Secretary of the Prussian Legation at Paris had gone to Berlin to confer with his government in regard to

the Polish question. A Cracow telegram of the 10th instant says that pre-parations are being made by both the Poles and Russians

for a real battle.

The latest despatches from London, dated on the 13th lost, report—It is said that the reply of the Czar, of Russis to the courteous letter of the Emperor of France, is a refusal on the part of Russis to make any concessions to Poland, or to accept anything short of the unconditional submission of the rebels in arms.

The fundance of the rebels in arms.

forty thousand.

Great Hritain.

In the House of Commons the bill substituting affirmations for eather was rejected, and one introducing whipping as a punishment for garrotters was carried to a second reading, in spite of the government opposition.

The crowds in London on the night of the illumination were so dense that seven women were killed and a hundred persons had their limbs broken to were otherwise soriously injured. In some parts strong men were completely exhausted, and vehicles were jammed together for four or five hours.

At Cork, during the liluminations, there was comercioning by organized mobs, and the streets were several times cleared at the point of the bayonet.

The Prince and Princess of wales remain at Caborne about a fortnight, after which they give two grand evening parties at St. James by command of the gueen.

Sir James Outram, of Indian fame, died at Paris on the lith instant, aged sixty years.

The Paris Bourse closed on the 11th instant at 69f. 70c. or the reutes.

The bill for a new loan passed the Senate with only five

it was reported that the contract for the loan had been good by the Bothschilds, but the particulars had not accepted. The Lordon Times says that the advices from Paris state that the cause of the reduction of the rate of discount of the Itank of France is owing to a considerable indicate of builton from America. Further response in the rate of discount was checked by a further downward inovement in consols on the 12th instant.

THE TROTTING PROSPECTS—THE SPRING SEASON.
In no previous year do we remember to have known so

son to be trotted for on that comated, will cost about twelve thousand dollars; but as their rebuilding it depends on their getting this amount the course, there will probably be some delay about it.

FINANCIAL AND COMMERCIAL.

The general indications to-day were that the storm has nearly blown over. Gold was rather better than yesterday—it fluctuated between 139 and 142, closing at 141% bid. Mr. Dean's bill passed the Assembly this morning. A very exag-gerated idea prevails in some quarters with regard to alleged trouble among merchants growing out of the decline in gold. We have taken some pains to inform ourselves on the subject, and cannot find that any single bouse is in trouble, that any goods are being forced on the market, or that any losses have been incurred by houses which cannot afford to pay them. The decline in goods is small in comparison with the previous advance. If merchants were disposed to sell—which they are not, almost every one being determined to hold—they would lose, at present prices, but a small per centage of what they have prices, but a small per centage of what they have made in the past two years. It is very encouraging to see the present improvement in public confidence. But certain fadications which we notice render it well that people should be reminded that the war is not over yet, that the first indication of a disposition to make peace has not yet been manifested at the South, that we have won no victories along a really was religing at 173 and these though rested at the South, that we have won no victories since gold was selling at 173, and that, though the people are lending the government about \$2,000,000 a day, the necessities of the Treasury and the falling due of debt certificates compel Mr. Chase to use not only all this money, but about \$1,000,000 of new paper money besides, which the bank note companies are daily producing.

Exchange sold this morning at 153, 154 and 155, and closed about 155.

Money is easy to good borrowers, though somewhat active among the speculative jobbers and the brokers, in consequence of the disturbance of margins. The leading houses are supplied at 8 a 6 per cent. There is no change in debt certifi-

Sales at the Public Board.

One o'Clock 7. M.

The stock market this morning continued very feverish and irregular. At the morning board the principal decline was in guaranteed, which fell 5 per cent; New York Central, which fell 2½, and Erie preferred, which fell 2½, and Erie preferred, which fell 2½. The cheaper shares were steadler. Erie declined only ½, Southern old 1, and Pittsburg was a shade better than last evening. The irregularity of the movement arises partly from the fact that these shares were selling lower, in proportion to their prospects and the earnings of the roads which they represent, than the higher priced shares, and partly from the circumstance that the stocks which have come out since the fall in gold have been mostly first class securities. When exclusively and the care in the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come out since the fall in gold have been mostly in the fact that the stocks which have come in the fact tha come out since the fall in gold have been mostly first class securities. When exchange was 180 a 190, a number of importers, instead of remitting, invested their money in first class securities here for account of their foreign correspondents. The securities chosen were mostly New York State LIVERPOOL COTTON MARKET.

The market closed firm at an advance on the week of come half of a nemay for American descriptions and oneMichigan Central, Pennsylvania Coal, Delaware

are selling the securities they bought. Hence the one P. M. board the market railied, and there was a lively demand for Erie, Pittsburg and some of higher. The following were the closing quota-

The receipts at the Sub-Treasury to-day for deposit at 5 per cent were only some \$300,000. The business of the office was as follows:—

The American West India Company have received another consignment of West India produce from San Domingo, per Sea Gull. The compan are now loading the schooner Nautilus (the fifth of the line) with a general cargo of produce and agricultural implements, &c., and will send by this

vessel a gang of woodchoppers to out dyewoods, lignumvits, &c., from their lands. We are requested by Mr. George W. McLean, of the Stock Exchange, to state that his name has been used as one of the corporators of the new public board, without his authority or consent. The Panama Railroad has declared a dividend of

three per cent out of the earnings of the road for the three months ending 31st instant, and one per cent additional out of the earnings of vessels, &c., payable on the 6th of April. The Cleveland and Toledo Railroad has declared a semi-annual dividend of four per cent, free of government tax, payable at the office of Messrs. Vermilye & Co. on
